Bootstrap | Materialize

React | Redux

React Native

Node.js | Express

AWS Amplify

GraphQL

SQL | Postgres

RESTful APIs | AJAX

Git | Github

ERDS | WireFrames

Agile Methodology

PERSONAL SKILLS

I analyze first, identify any areas I don't understand, and then think of multiple ways to solve it. And if i'm stuck, I'll ask for help.

I find myself listening to others first, because it gives me insight as to how I need to communicate my words effectively.

I push myself even if it makes me uncomfortable. I once, signed up for Potawatomi 200 mile ultra marathon, because it has a 50% finishing rate. So far, i'm the only female finisher.
